Don't be Extravagant.

If the poor house has any terrors for you, never buy what you don't need. Before you pay three cents for a jewsharp, my boy, ascertain whether you cannot make just as pleasant a noise by whistling, for which nature furnishes the machinery; and before you pay seventy-five dollars for a coat, young man, find out whether your lady would not be just as glad to see you in one that cost half the money. If she would not, let her crack her own hazel nuts and buy her own clothes. When you see a man spending two or three dollars a week foolishly, the chances are five to one that he'll live long enough to know how many cents there are in a dollar; if he don't, he's pretty sure to bequeath that privilege to his widow. When a man asks you to buy that for which you have no use, no matter how cheap it is, don't say yes until you are sure that some one else wants it in advance. Money burns in some folks' pockets, and makes such a big hole that everything that is put in drops through past finding. Don't be extravagant, but purchase your boots, shoes, and gaiters, at the cheap house of J. A. Robinson & Co.'s, 61 Market street.

Pumps, Hydrants, &c.

Now as winter is approaching, parties should make all the changes they purpose making to serve them through the coming cold days. Water pipes in exposed places should be re-set, in order to guard against the endless trouble of having supplies cut off by King Frost. For all work of this character we know of no firm more worthy of patronage than that of T. T. Ewen's, Wood street. He is a practical plumber and mechanic, and gives his supervision to all work entrusted to him. Orders from the country promptly attended to, if left at their store, No. 165 Wood street.

Roback's Bitters.

"Lives there a man with soul so dead,
Who never to himself hath said,"
Roback's Bitters—they are the best—
To appetite they give a zest;
There are none so good, none so pure,
Disease none will so surely cure.

Take it my friend if you'd be well,
Take it, and to your neighbors tell
The wondrous story of their worth;
Tell it, and let the word go forth,
Health is wealth and that means greenbacks,
One thing better, that is Roback's ——.

Now is the Time.

Ere the bright transitory beauty of autumn entirely disappears, we should avail ourselves of the fair days and have our pictures taken by some first class artist; one well skilled in all the mysteries of the photograph art. One of the very best places in the city to procure a desirable likeness is at the commodious and elegant rooms of B. L. H. Dabb's, No. 22 St. Clair street. Even if you do not wish to procure a picture you should visit the Dabbs' exhibition rooms and feast your eyes on some rare works of art, comprising statuary oil portraits and soft delicate tinted landscapes.

Toothsome Delicacies.

Our readers should not fail calling at the popular Continental Saloon, next door to the Postoffice, in the basement, on Fifth street, for a dinner or a meal fit for a king. Mr. Holtzheimer, the proprietor, has long enjoyed a high reputation in his business, and having established a first class line of custom, he endeavors to sustain his reputation by giving strict and careful attention to his business. This is, without exception, the best managed saloon or dining room in Pittsburgh.

Hon. D'Arcy M'Gee's Speech.

MONTREAL, Nov. 2.—Hon. D'Arcy M'Gee made a speech last night before the Caledonean Society, and said if he had the ear of the Irish people he would say: Consider the prosperous position of Scotland. Consider the example of Scotland. Cease to pursue the impossible and impracticable. Try by every novelty something that contains elements of success. To the imperial statesmen he would recommend the familiar American word "reconstruction," and a generous policy towards Ireland.

THE BALTIMORE DIFFICULTY.

City Perfectly Quiet—New Commissioners Not yet Sworn in—Refusal to Serve Under Gov. Swann—Judge Martin's Views.

BALTIMORE, November 2.—The city is perfectly quiet to-day. No disturbances have taken place beyond an attempt to shoot a policeman by firing at him whilst in Taylor's news room.

The new commissioners have not yet made their appearance, nor have they yet applied to be sworn in.

There is no truth whatever in the report telegraphed from this city that Mayor Chapman has decided to recognize the newly appointed police board. On the contrary, he is out-spoken in his determination not to recognize them.

The latest report is, that Mr. Berry has positively declined the appointment of Police Commissioner, tendered him by Governor Swann.

PHILADELPHIA, November 2.—The *Bulletin*, of this city, has a special dispatch from Baltimore, which says: Gov. Swann's new Police Commissioners applied last night to Judge Martin to be sworn into office. The Judge refused to attend to business out of Court, and there has been no application in Court up to this time. The Clerk of the Court is Alfred Mace, a staunch loyalist, and he will not swear in the new Commissioners. Judge Martin will also probably refuse to swear in the new Commissioners in court before taking possession of the offices to which they have been appointed by the Governor. The old Police Commissioners will not recognize the appointments of Gov. Swann under any circumstances except by actual military force. Three-fourths of the old police force will refuse to serve under Gov. Swann.

BALTIMORE, Nov. 2.—Governor Swann returned to Annapolis this morning from Washington. There are throngs of people in the vicinity of the police stations and newspaper offices, but all remains quiet. The following is what was said by Judge Martin of the Superior Court of Baltimore City, before permitting the oath to be administered to the new Commissioners appointed by Governor Swann:

"In the matter of Wm. T. Valiant and James Young, who have applied to be allowed to take oaths prescribed by the first section of the act of 1862, chapter 131. In allowing these applicants to take the oaths required by the first section of the act of 1862, chapter 131, I desire to be understood as expressing no opinion on the question as to the jurisdiction of the Governor of Maryland to remove the Police Commissioners, who were in the office under the appointment of the Legislature, for official misconduct, or as to the validity of the title of these applicants to the office to which they claim to be entitled under the appointment of the Executive. In directing to be administered to these applicants the oaths required to be taken by them by the act of Assembly of 1862, chapter 131, the court performs only a ministerial duty which may be discharged by the clerk. It is no evidence of title in these applicants to the office claimed by them, but only puts them in a condition to maintain the validity of that title. The taking of the oaths prescribed by the police act, is only a compliance with the conditions demanded by the statute, and without the performance of which the applicants could not be regarded as entitled to hold the office of police commissioner to discharge its duties, even assuming that the mode in which they have been appointed was entirely unexceptionable, the question of their title to this office cannot be tried in this form."

Card from Hon. James Harlan Regarding Sale of the Cherokee Lands.

WASHINGTON, November 2.—Hon. James Harlan this morning publishes an elaborate reply to the statements made, impugning his motives in the sale of the Cherokee neutral lands. Being thoroughly convinced that the interests of the Indians required it, he says he sought diligently for a purchaser, and after failing in all quarters he ultimately effected a sale to the American Emigration Company, of Connecticut. He claims that this contract was in accordance with the treaty, and that with reasonable diligence the whole amount, except the expenses of survey, would be in the Treasury to the credit of the Indians or at interest within one year from the date of the contract. By the other mode of sale, in driblets, the expense would be much greater, and judging from past experience it would be a life time before the whole could be converted into cash. A few interested parties desired the vacation of the contract for purposes of speculation. Mr. Harlan concludes by saying: Not regarding them as disinterested advisers their advice was not followed by me. I preferred to follow my own judgment of what the true interests of the Indians and the people of Kansas required. I did what appeared to me to be both wise and just, and I neither fear nor doubt the judgment of an impartial public opinion, and if my successor should follow the advice of the Attorney General, set aside this contract and succeed in making a better disposition of these lands, none of his friends will be more highly gratified than I shall be with his success.

Ireland Once More to be Made Free—Address by President Roberts—A Suit Against Great Britain.

NEW YORK, November 2.—Colonel Roberts has issued a stirring address to the Fenian Brotherhood, calling on them to form themselves into military companies at once. The neutrality laws, he says, cannot prevent them, and British influence will no longer be allowed to rule this country to your injury and Ireland's shame. Strange events are in the near future, and you know not how soon you may be called upon to strike again for Ireland. Let not the occasion or call find you unprepared. He entreats them to work. Instructions requiring secrecy will be sent to the circles. A letter received here says two Fenian prisoners recently in the hands of the Canadian authorities escaped, and are now in Rochester. They state that the American Consul at Toronto expressed hopes that the Canadian Government will hang them all. General Gleason, in New York, is preparing a claim against the British Government, to be forwarded to Washington, for sixty thousand dollars, for illegal imprisonment in Ireland.

LATEST FROM BALTIMORE.

The Old and New Police Commissioners—Mass Meeting of Republicans—Address to the Country—Proclamation by the New Commissioners.

BALTIMORE, Nov. 2.—The latest reports in regard to the Police Commissioners is that the newly appointed Commissioners will make a formal demand to-morrow morning for the surrender to them of all the station-houses and other property, together with the arms, &c., belonging to the force. This demand, it is further said, will be supported and enforced by the Sheriff with a large posse.

The demand, it is understood, will be refused and the Commissioners will announce their determination to submit only to the decision of the courts. They have sworn a very large number of special policemen which they suppose will be superior to any force the claimants will be able to summon to enforce their demand.

All is quiet to-night, and it is hoped the whole matter will be yet settled without any serious disturbance of the public peace.

There have been several persons named for Marshal under the new Commissioners, but it cannot be ascertained that they have yet settled on any one.

A very large meeting of Republicans was held to-night at the Front street Theatre. General John R. Kenly and Ex-Secretary Harlan were among the speakers.

The mass meeting at the theatre to-night adopted the following declaration addressed to the country in regard to the exciting trouble:

The loyal citizens of Baltimore assembled at an extraordinary juncture in the affairs of the city and state, think it due to themselves and to their fellow citizens of other States to give a calm and deliberate expression of their views and purposes in reference to those occurrences which are now agitating the minds of our community.

First, We are law-abiding people, and it is our purpose and desire to maintain the laws and not to resist it.

Second, We propose to maintain and defend our rights under the law, and in a lawful manner.

Third, We hold that in case of any doubts in the construction of the law, those doubts are to be determined only by the constitutional interpreters of the law, viz: The courts which are created for that purpose.

Fourth, We demand, as a right, that the question in controversy between the Governor of the State and the Police Commissioners, a question in which, as citizens, we have a deep interest shall be submitted to the decision of the courts, and if it is submitted we believe there will be none.

Fifth, We desire also to express our strong confidence in the integrity and fidelity of Messrs. Hinds and Wood, who, with the Mayor, constitute the present Police Board, and we appeal to the fact of quiet and order prevailing in our city under circumstances so provocative of excitement, as evidence of the efficiency of their administration, and we pledge our undivided support in the lawful discharge of their office until displaced by the decision of a competent judicial tribunal.

Finally, While we deprecate undue excitement and in this crisis desire to speak and act dispassionately as well as firmly, we cannot refrain from expressing our indignation at the action of Governor Swann in his attempted removal of the Police Commissioners we believe that act to be a violation of the Constitution and laws of the State, and an assumption of authority what he has no legal right to exercise and enforce.

We declare to the people of the United States what is abundantly shown by the manner of conducting the investigation by the fact that the Judge is a known candidate for the office of United States Senator, was himself virtually a party to the case by the language of his decision, and by the political character of those whom he has appointed to succeed the present Commissioners, that the object sought was not justice, but to promote political and personal ends by the transfer of the power of the State to a faction composed chiefly of those who were sympathizers and abettors of the late rebellion.

The following proclamation has just been issued by the newly appointed Commissioners, the old board regarded it as an attempt to seduce their force from their control, are also about issuing a proclamation:

Board of Police, Baltimore, Md., Nov. 2, 1866.—Having been appointed Police Commissioners by his Excellency, Governor Swann vice Messrs. Samuel Hinds and Nicholas L. Wood removed, we desire to state that in the prosecution of the duties assigned us we do not design any interference, in any respect, with the police now organized, or to remove any person connected with it for his political opinions, provided he does not hereafter render himself amenable to the laws now in force for the government of the police of Baltimore. We believe that the officers and men in the Department are disposed to be what the law requires them to be, conservators of the peace, and it is hoped and expected that they will cheerfully aid us in preserving the peace of the city. We also invoke all good citizens to assist us by their counsel and example, and that they will use their best endeavors to prevent any undue excitement, and that they will also advise all disposed to act otherwise and to quietly and peaceably acquiesce in the measure now about being inaugurated by the authority of the Governor.

The Fenian Trials in Canada—Arrangement of More Prisoners.

TORONTO, C. W., Nov. 2.—It not being understood that there was any Fenian trials, the attendance at the opening at the court was not large. Upon Daniel Wheelan being placed in the dock, the court rapidly filled, and soon became crowded. Mr. M'Kengie asked a postponement of the trial until the 17th of next month. After a discussion the 12th inst. was fixed upon. Mr. M'Kengie then said he was ready to proceed with the Paris case, but the crown witnesses being absent, it was postponed to Tuesday next.

The grand jury then entered the court with true bills against Thomas Cooney, Thomas School, William Duggan and John O'Conner, all Fenian prisoners.

Thomas Cooney was then placed in the dock and pleaded not guilty. His trial was fixed for the 15th inst. Thomas School was next placed in the dock and claimed to be an American citizen, pleading not guilty. His trial is fixed for the 16th inst. Wm. Duggan pleaded the same, and his trial was fixed for the same day as the last.

Mr. McKenzie then applied to have the indictment quashed on the ground that different courts had charged the prisoners with being foreign subjects and British subjects, and submitted that they could not be both. If they are held to be British subjects they must be indicted for treason. The Judge overruled the objection for the present. Mr. Kenzie then gave notice that he would move that the crown elect whether to try the prisoners as British subjects or American citizens. His Lordship remarked that he thought the intended motion a very proper one, but he would leave it to the jury to say whether they are British or American subjects. Similar notice was given for John O'Connor, and the Court adjourned till to-morrow, when Rev. Mr. Lumsden's case will be proceeded with.

Judge Holt and the Charges Against Jeff. Davis.

NEW YORK, Nov. 2.—It will be recollected that sometime since, the report was circulated that Advocate General Holt had, by unworthy means, urged the preferring of the charges against Mr. Davis, and that he subsequently published a pamphlet in which he detailed at length the circumstances under which the said charge had been made. From this account it appeared that Sanford Conover alias C. A. Dunham volunteered to find a man who had stated that he knew sufficient about the case to warrant such a charge being made, whereupon William Campbell, *alias* J. A. Hoare, was named as the person alluded to; that in order to obtain the attendance of the said Hoare sums of money were advanced at various times to the aforesaid Conover, and that Hoare did appear before the Judiciary Committee of the House of Representatives and testify accordingly. Hoare subsequently admitted that his statement of the whole affair was false and without any foundation in truth. It appearing that the whole story had been served up by Conover, the Committee recommended that he be arrested. Accordingly, Judge Advocate Turner, of Washington, ordered the arrest to be made, and upon Conover making his appearance in the city he was arrested by United States Marshal Murray and sent on to Washington yesterday.

The Railroad Excursionists.

LEAVENWORTH, November 2.—The Union Pacific Railroad excursionists, who left St. Louis yesterday afternoon, arrived here at ten o'clock this morning. They were joined by the Eastern party, consisting of Thomas A. Briddle, Edward Miller, Strickland Kneass, Dr. Lecomte of Philadelphia, G. W. Peck of New York, Elias D. Kennedy, Josiah Copley of Pittsburgh *Gazette*, Captain John McCook of Ohio, and representatives of the New York, Philadelphia and Pittsburgh journals, and several others. Gentlemen of both parties have been the guests of the city during the day, partaking of a sumptuous dinner at the Planters' House, and a ball at the same place will take place to-night.

During the evening the parties held a meeting at the hotel, at which the members of both delegations were formally introduced to each other. Several speeches were made, setting forth the obstacles surmounted in the construction of the road, its present condition, future prospects of the company, and its enterprise. A general good time was had. The excursionists start at 7 o'clock to-morrow morning for Fort Riley and Junction City, and return to Lawrence in the evening, where a grand supper and ball will be given by the city authorities.

FROM WASHINGTON.

The Fenians Get Back their Arms from the Government—Removals from Office—Announcement by the Comptroller of the Treasury—No More National Banks to be Organized—Execution of Negroes at Marlboro—Pension Applications.

WASHINGTON, November 2.—The mission of P. O'Day, of Buffalo, and J. C. O'Brien, of Rochester, has been successful, they have obtained the return of the arms of the Fenian Brotherhood, through the influence of Hon. Jas. M. Humphreys and Francis B. Gallagher of Buffalo. It is also stated in this connection, that W. A. Dartus, Attorney for the Northern District of New York, was to-day removed from office.

The President to-day removed the Postmasters at Warsaw, Indiana, and Waterloo, Iowa, and appointed Andrew G. Wood to fill the former and J. P. Evans the latter vacancy.

The Comptroller of the Currency announces that bonds have been received for deposit with the Treasurer of the United States to an amount sufficient to secure the entire three hundred millions circulation of the National Banks, authorized by law, and no more can be received after this date. The limit has been reached and hereafter it will be useless to forward bonds or to apply for an increase of capital, or for the organization of New Banks, or to do anything with the expectation of getting circulating rates.

Four colored men, who confessed their crime, were hung this morning at Upper Marlboro, Md., for the murder of Col. Wm. Lyles, near Piscataway, in June last. Their object was plunder, which they secured, having taken about $1,600 from his Secretary. A large number of persons went from Washington and the surrounding country to witness the execution. A fifth negro, who had been convicted of an infamous offense, was granted a respite in order to inquire into the truth of the new evidence in his favor.

The following regulations in regard to applications for increase of pensions, were issued from the Pension office to-day: Applications for increase of pension, under the acts of June 5th, and July 25th, 1866, form a part of the unadjudicated or pending claims, and their receipt is not acknowledged by this office. The condition of all unadjudicated claims is reported from time to time by circular or by letter, and will not be reported to any agent, unless he shall have been recognized by this office as the attorney in this case, nor unless the application shall have been on file at least three months, special cases excepted only. A duly executed power of attorney, confers upon an agent the right to appear in a case, and no unadjudicated claim will be taken from the files for examination, unless material evidence shall have been offered to establish its validity.

During the past month, 1741 applications of widows were received at the pension office, of which 1544 were allowed, and 187 were rejected. The number of applications received for invalid pensions, was 3,560, of which 3,038 were allowed and 442 were rejected.

CITY AND SUBURBAN.

(ADDITIONAL LOCAL NEWS ON THIRD PAGE.)

The Relations Between the Merchant and His Clerk, and a Good Suggestion for Both.

From the Philadelphia *News* we clip the following truthful article which we trust our merchants will read carefully and act upon its wise suggestions. We know of several prominent gentlemen in the front rank of the mercantile community here, who long since adopted the plan of having their clerks occasionally enjoy the hospitality of their mansions in pleasant re-unions, and we verily believe they have never had cause to regret the custom.

"The relations between clerks and their employers have changed greatly within the last fifty years. Half a century since clerks, in the great majority of cases, formed part of a merchant's family, and he felt it his duty to exercise a certain parental oversight of their conduct, warning them against the temptations of the city, and providing for them the safeguard of a comfortable and pleasant home, such as is very seldom found in a boarding house. If he had daughters it was only natural that the young men, living under the same roof, should become sensible of their attractions and dream of nearer connection. Many a thriving merchant, whose name has since become weighty on 'Change, has laid the foundation of his prosperity by marrying his master's daughter, and afterwards becoming connected with the firm. Now-a-days, however, everything has changed. The little mercantile crafts that used to hug the shore have expanded into great vessels requiring large crews. Instead of half a dozen clerks there are now a hundred or more in some of the principal establishments. Business is no longer conducted in the jog-trot manner of former times, but "hurry and drive" is the popular motto, and business operations are conducted on a scale that would make the steady old clerks of the year 1800 open their eyes in amazement. Of course it is impossible for an employer to admit a hundred clerks into his house, or obtain that personal knowledge of them which was once possible. Probably there are many merchants in the city who might fail to recognize some of their employes if they should meet them outside of their stores. Many seem to care very little how their clerks spend their time out of business hours. Thus left to themselves, if these young men are weak they are very likely to yield to the temptations that surround them. Hundreds of young men suffer moral shipwreck every year in this city, and disappoint the fond hopes of those who are interested in them. Many of these might have been saved by a little timely advice. A merchant, for example, employing fifty clerks in his store can occasionally hold a clerks' reception, and invite all in his employ to spend the evening at his house. The evening might be made pleasant, and the result of it would be an indication of the merchant's interest in his clerks. It would show that he looked upon them not as mere business machines, but as worthy of social recognition. If such gatherings took place only twice a year, it would give rise to a feeling of personal friendliness between the employer and his clerks, which would tend to make them more zealous in promoting his interests, so that even in a pecuniary way it would "pay."

Western University.

Last evening a pleasant re-union of the patrons of this institution, and of the friends of Education in general, was held at the University Buildings, under the supervision of the Rev. Dr. Woods, President, and the Professors associated with him in the work of instruction. The object was to bring the matter of Education home to the hearts and minds of our leading citizens, to animate them with zeal in its behalf, and especially to quicken them in providing a proper and liberal endowment for this particular institution.

The Quartet Choir of the Third Presbyterian church, led by Mr. James Digby, and assisted by Mrs. Norman Smith, furnished delightful entertainment in the way of music. Addresses were delivered by the Rev. James S. Dickerson, Pastor of the First Baptist church; the Rev. E. B. Snyder, of Christ Methodist Episcopal church; the Rev. S. F. Scovel, of the First Presbyterian church; and the Rev. Herrick Johnson, of the Third Presbyterian church. Dr. Woods, also, made some excellent observations. The burden of all the addresses was the importance of Education, and especially in its higher departments.

After the addresses, elegant refreshments were served.

The whole entertainment—mental, material and æsthetic—was of a superior order. The participants certainly enjoyed it; and we trust it will bear fruit, if not in hard dollars, at least in abundant greenbacks, for this most meritorious object.

Within the last few years, under its present able and learned management, the University has had new life imparted to it; but it is not yet all it ought to be, by any means. It remains for our citizens of wealth to put it on a foundation of greater usefulness and power.

The Old Stand.

We take pleasure in calling the attention of our readers, and the public generally, to the advertisement of James Phelan, who has had many years experience in catering for the public comfort. His patrons have the advantage of his long experience. He can tell exactly what suits them.

His Lambskin Vests remove more ills
Than fifty thousand doctor's pills.
Wise men who keep the body warm
Need never dread a coming storm.
Phelan's comforts can insure
From all disease, both rich and poor;
Procure them, then, without delay—
There is no doctor's fee to pay.
Doctor's themselves oft seek his aid,
Although he serves to spoil their trade.
Drugs are a blessing or a curse,
That cure disease or bring on worse;
But Good Warm Underclothing is a charm
That must do good and can't do harm.
Give him a call. Phelan's Old Stand Stocking Store, No. 24 Fifth street.

A Test of Strength.

Peter Ballian and Matthew Jaretan are fellow-employees in Lowman's rolling mill in the Ninth ward. Yesterday the twain engaged in an animated dispute on the relative strength of each other's muscular system. By way of illustrating the truth of his remarks, Jaretan struck Peter a severe blow in the face which had the effect of prostrating the form of the conceited Peter in the gutter. For giving this forcible illustration of his manhood, Jaretan was arraigned before Alderman Albeitz, of the Fifth ward, and after a partial hearing, was made to furnish bail in the sum of three hundred dollars, for his appearance at the next term of the Criminal Court.

Personal.—We were favored yesterday with a call from our friend McEarue, the talented editor of the Ebensburg *Sentinel*. He was in the city upon a business trip, and returned home yesterday.

Large Fenian Meeting—Addresses and Resolutions.

The friends of Irish Nationality held a large and spirited meeting last evening in Fenian Hall, corner of Fifth and Smithfield streets, for the purpose of giving expression to their sentiments with regard to the future of Ireland, but more particular to discuss what is best to be done in the case of those persons condemned to death by the British Government in Canada for their adherence to the Fenian cause. The meeting was organized by calling Captain Higgins, of this city, to the Chair, and appointing John Sinnott and Jas. Connolly, Secretaries.

On assuming the presidency, Captain Higgins returned his thanks to the assemblage for the unsolicited honor conferred upon him, and in a brief and pertinent address, which was well received, stated the object for which the meeting had convened. In conclusion he introduced Dr. E. Donnelly, Surgeon to Gen. O'Neil in the Canada invasion, who, in coming to the stand, was warmly received. The Doctor began by alluding to the wrongs his country had suffered during seven hundred years of British rule—a rule which for barbarism and treachery has never been equalled since the formation of the world. The oppressions and wrongs which Irishmen have had to endure has had the effect of uniting their heart and soul against their ancient enemy, who, ere long, is destined to feel their retributive vengeance with such force as to humble her haughty pride and bring her royal purple to the dust.

The speaker gave an elaborate history of the Fenian Brotherhood from its earliest conception to the present, and declared that its only mission was the liberation of Ireland. Some few skeptics are of the opinion that Fenianism is dead, but the speaker assured them it was only slumbering. The present lull is but that which precedes the storm which is silently, but surely, gathering around the throne of the proud Rex. Cincinnati had, within the last few weeks, raised and organized three thousand men to be ready for the next campaign. Would Pittsburgh be behind the Queen city in giving men to fight the battles of their country. He felt she would not be, and that one regiment at least could be given from this city.

The speaker then argued that Thomas McMahon and R. B. Lynch, now under sentence of death at Toronto, were not Fenians, and that the execution would be a brutal and unjustifiable act of malice in the eyes of the civilized world. He concluded by making a strong appeal for unity of purpose among the friends of Ireland, and prophesied ultimate success for the cause.

The following preamble and resolutions were then submitted by Dr. Donnelly, which were adopted without a dissenting voice:

WHEREAS, From information received of the proceedings of a Canadian Court, held at Toronto, we learn with regret and astonishment that two American citizens, the Rev. John M'Mahon and Robert Blass Lynch have been condemned to death for treason to the British Government; and

WHEREAS, The British officials, in thus condemning to death American naturalized citizens, for political offences, legally ignore the right of their subjects becoming citizens of the United States, and before the great Republic to protect her adopted citizens; and

WHEREAS, The President of the United States has instructed the Secretary of State to demand a copy of the charges and evidences on which our citizens have been condemned to death; therefore,

Resolved, That whilst deeply sympathizing with the condemned men, we urge and appeal to our Government to take immediate steps in asserting its rights and protecting two of the most devoted of all her children from an ignominous death.

Resolved, That we, as American citizens and Irishmen, knowing that England will execute her bloody laws on the weak and unprotected, it becomes our sacred duty to adopt such measures as will secure the liberation of our innocent, suffering countrymen.

Resolved, That the Fenian Brotherhood and all citizens who love their country, and hate British rule and oppression, form themselves into military organizations, and be ready at a moments notice to avenge the murder of our companions and insult to our country.

Addresses were also delivered by several gentlemen, after which the meeting adjourned.

We understand three companies, fully armed and equipped, have been organized here within the past few days.

Unprovoked Assault.

J. Q. S. Golden is employed as a salesman in Carroll's clothing store, on the corner of Market and Liberty streets. Yesterday, while pursuing his vocation, he accosted a passer-by named Jonathan Lowe and desired to know if he wished to purchase any winter clothing. Unfortunately Lowe's wardrobe was rather shabby, his knees and elbows being freed from the restraint of warp and woof, were out enjoying a brief bask in the autumnal sunshine. This circumstance gave color to the belief hastily conceived in the mind of Jonathan that Golden was ridiculing his costume, and without demanding an explanation or apology he struck Golden, knocking him down on the pavement, and then coolly walked away. Two hours after he returned, and seeing Golden at his post as usual he became excited again and renewed the assault, this time beating the unfortunate salesman in a terrible manner. Lowe was subsequently arrested and brought before Alderman Donaldson, who committed him for a hearing in default of the requisite $500 bail.

Assault With Intent to Commit a Rape.

A young lady named Jennie Ray came to the office of Alderman Taylor yesterday and instituted proceedings against Samuel W. Warren for assault and battery with intent to commit a rape. The prosecutrix alleges that on Thursday evening, as she was returning from her mother's residence, on Pike street, in the Fifth ward, to the house of Jonas R. Bocklan, on Wylie street, in whose family she is employed as a domestic, she was met by Warren, who, after exchanging with her the usual good night salutations, insisted on her accompanying him to the house of a certain notorious bawd named Mary White. She indignantly refused, when he grasped her around the waist and endeavored to carry her forcibly down Washington street in the direction of the Fort Pitt Glass Works. Without making any outcry the girl succeeded in freeing herself from Warren's clutches and making good her escape. A warrant has been issued for his arrest.

Robbed.

The obliging weighmaster at the Diamond scales, in Allegheny City, Mr. J. S. Edgar, was relieved of his memorandum book, containing thirty-two dollars in greenbacks, yesterday morning, under the following agravating circumstance: He had been using his memorandum, but had carelessly left it in the railing surrounding his desk while he registered the weight of a wagon load of hay. On turning to take it up he discovered it had mysteriously disappeared. We trust the scales of human justice will never be set aside until John becomes the weighmaster and has the opportunity of meting out justice to the thief who has thus robbed him of his net o'er abundant lucre.

Charged with Theft.—Robert Coward, the proprietor of a brick yard on Boyds hill, came to the office of Alderman Morrow, yesterday, and made an information charging two children belonging to Samuel Mason, with the larceny of a number of coal shovels from his premises. A search warrant was issued and placed in the hands of officer Conners, who, after a diligent search succeded in finding the stolen articles in a coal shed attached to Mason's house, in Bluff street, in the Eighth ward. The father of the accused entered bail for their appearance at a hearing to be had in the case to-day.

A Soul in Danger.—An irritated damsel named Ellen Droyer, came to the office of Alderman Lynch, yesterday, and made oath against James Sullivan, for surety of the peace. The defendant alleges that Sullivan, who occupies a dwelling contiguous to that of her own, on Tunnell street, in the Third ward, said he would kick her soul out of her body, and as if to add terror to his threat, he brandished a huge dirk knife in dangerous proximity to the fair Ellen's cranium. James gave bail for a hearing.

Fatal Accident.—Justice Buhoup of Duquesne borough, while attempting to remove some filth from a well in the rear of his dwelling yesterday, by some mischance missed his footing and tumbled into the well, a distance of sixty feet. He died shortly after being taken up. Coroner Clawson was summoned to hold an inquest. The deceased was a kind, honest and generous man, and his untimely death will be regretted by all who had the pleasure of his acquaintance.

Personal.—Mr. Frank Campbell, a native, and long a resident of this city, returned to his home, in the Eighth ward, yesterday, after an absence of sixteen years in California and Idaho. Mr. C. was a candidate for Congressional Delegate from Idaho against Mr. Holbrooke, the present incumbent, and was only defeated in the nominating convention by a single ballot, during the late canvass.

In Jail.—William Ward appeared before Alderman Strain yesterday, and made oath against Richard White and John Redmeyer, for assault and battery. The parties accused were already in jail on a charge of drunkenness when the more serious charge was entered against them.

Card.—Dr. Aborn devotes especial attention to diseases of the eye and ear, catarrh, affections of the throat and the organs of the chest. Chronic diseases, such cases as may have been deemed hopeless, solicited. Consulting and Operating Rooms, 96 and 97 Merchants' Hotel.

About to Change Hands.—The Canfield *Union* says that negotiations are pending with a view of placing the Ashtabula and New Lisbon railroad in other hands and securing its speedy completion.

Attention is called to an advertisement in to-day's paper, of a distillery at auction.

New Rolling Mill.—A company have purchased land in Youngstown, for the purpose of erecting a large rolling mill, at a cost of about $60,000. They have also decided to build a large double stock furnace.

Ohio Coal.—From 1,300 to 1,500 tons of coal are daily brought into Youngstown, Ohio, from the mines in that vicinity.

Get the Best—They Always Give Satisfaction.

Every week, Dr. Quincy A. Scott is called upon to insert Artificial Teeth in cases where other dentists *have tried, been paid, and failed*, and in every case his work gives entire satisfaction. He is quite an artist in his line of business, and has merely to examine a case to know how to articulate the teeth so that they will present a handsome and natural appearance, and will masticate the food thoroughly.

His prices are lower than those of any dentist in the city, and he will *guarantee* his work to be superior. So it would better for any of our readers who are in want of teeth, to call upon the Dr. in the first place, and thereby save their time and money. We would also assure those persons who are suffering with diseased and unsightly teeth that they can have them extracted *without any pain whatever*, by calling upon Dr. Scott. He has extracted for over *ten thousand* persons within the last seven years, and among this large number there is *not one* case in which his process has proved injurious. On the contrary, he can refer to numbers of his patients who claim to have been benefited in renewed health. He extracts numbers daily by the new "Rhigolene or Vapor" process, and gives pure Laughing Gas to those who desire it, without charge. He makes no charge for extracting when artificial teeth are ordered, and gives a full set on Vulcanite, with beautiful gums, for eight dollars. Remember his number, 278 Penn street third door above Hand.

The Pittsburgh Gazette

SATURDAY, NOVEMBER 3, 1866.

RELIGIOUS PROGRESS.

The Plenary Council of the Roman Catholic Church, recently held in Baltimore, doubtless took steps towards consummating the wishes of Pope Pius, in regard to the freedmen. The council was not open to the public, nor indeed was the object of the meeting stated. We are left to gather from various sources that certain modifications of discipline, certain changes of diocesian boundaries, an increase of the number of Episcopal rulers, and other minor matters, received the attention of this important body. But, the question of most importance to American citizens is their action in regard to the education and "evangelization" of the freedmen of the South. Reference has already been made to the pastoral letter of the Bishop of Savannah, indicating the wishes of the Holy Father on the subject.

It is well known that the course of the Catholic Church, generally in time past, has been against the education of the masses in the liberal sense of our Republican institutions inculcate. If the education of the masses were attempted it was restricted to the interests of the Church. The charge is frequently made, and not without cause, that the Catholics have voted almost solidly with the party whose principles were squarely against the elevation of the negro, and which have tended to fasten the negro's chains, instead of emancipating him from the bonds of servitude.

If the Council has devised liberally for the education of the Freedmen and their "Evangelization," this great question assumes an importance that should also awaken the Protestant Church to immediate action. The missionary spirit of the Catholic Church has ever been proverbial. The Jesuits have proved themselves to be among the foremost missionary pioneers of the world. They assume sacrifice and toil with a fearless spirit without bound, to fulfil their mission and accomplish their ends. The inducement of labor among the blacks are, says a well known writer, are threefold: millions, or at least thousands of converts, a numerical offset to the loss of the Temporal Power, and the practical political control of the Continent.

It cannot be denied that the enfranchisement of the blacks is a fixed fact of the near future. Politicians may employ whatever means they may, "*negro suffrage* is *coming* simply because this is the Republic of America." If the Catholics evangelize the blacks, they will inevitably secure the control of negro voters. The power of the foreign vote to balance between parties, neutralized and destroyed when the Apostle of Emancipation was elected, will be regained by the ballots of Romanized Freedmen.

We are totally in the dark as to what action the Baltimore Council took in regard to the grave issues now so prominently before the public. The large liberty enjoyed by prelatical representatives from the South, and from foreign countries, such as would not be allowed in any other country, to deliberate with closed doors, shows a spirit of genuine liberality in the enlightened North without a parallel. In view of these things we cannot forbear stating in connection the fact that the various Freedman's Aid Societies in our Protestant Churches are among the most evangelical as well as patriotic organizations of the day.

Before dismissing this subject, it is proper to note that the various Protestant denominations are rapidly organizing their forces to enter this field of labor, thrust upon the Church in the upheaving of war, in the Providence of God. The Old School Presbyterian church have commenced sometime since, schools and missions among them. The United Presbyterians are at work, partly co-operating with the N. W. A. Commission. The Baptists are concentrating their efforts through the Home Missionary Society. The Protestant Episcopal Church has organized a society and have entered the field. The Congregationalists are operating through the American Missionary Association. While the Methodist Episcopal Church has heretofore acted with the National Commission, it has recently gathered its forces for denominational action in connection with its net-work of missions and schools, rapidly spreading in the South. Thus the good work is going on among the freedmen. The seeming conflict between the Protestant and Catholic churches will give edge and activity to the work, and we may hope that our emancipated freedmen will be educated and evangelized in the truths of a pure Christianity then indeed will millenium glory reign in our great country.

We turn from this momentous question to another which is looming up to the importance it richly deserves. Until within a few brief years, the necessity of the Sabbath School, as an indespensible Church auxilliary, was not generally conceded. Some of the most influential denominations, however, have always given the cause prominence, and consequently have augmented their members more rapidly, and have, therefore, wielded greater influence and power over those who viewed the assumption of this department of church labor by the lay element, with a jealous eye. Now all denominations appear to vie each other in promoting the good cause.

Now every available means is employed to advance its interests. State, county and district conventions, are held in most of the sections of our vast territory, where the educated and experienced, ministerial and lay, meet to discuss questions bearing on the subject. All the improved modes of educational facilities are made tributary to its interests. Vocal and instrumental musical science are brought into use, never before attempted in this department, except in a prescribed form. The vast power of the press is also devoted to its promotion, in all its ramifications. It, in a word, is the hope of the Church against the tide of iniquity which sweeps through the land. No wonder that Protestant bodies, the Catholic Church, and the Jews, are all at work in this great field of labor, all viewing it alike, as the most successful mode of promoting the interests of their respective organizations.

Connected with the instructions of the Sunday School, there has been a felt necessity for adopting some mode to interest the children in the services of the great congregation. Various plans have been suggested, and practiced, but have measurably failed from various causes. Efforts have been used to distribute the pupils in the different pews, either placed in charge of their parents, guardians, or teachers; again, the entire school, with few exceptions, have been detained doing the morning service in the gallery, or some part of the church. This restraint has not worked well, partly because the children felt that they had no part in the service, but were mere lookers on. Considerable attention of late has been given to the introduction of young persons into choirs, and to take part in choral services. This plan has worked well, but hardly meets the want.

The *Advocate* of this city, in a recent issue says the Church throughout Christendom has made very little of the children in the service of the great congregation. They have no place of their own in the forms of public worship. We have made nothing of them; and so they do not fill their seats in the sanctuary. The *Advocate* suggests that the Sunday School children be trained to conduct by themselves the singing of at least one of the hymns in the regular church service. Whether this mode will prove the best one to cure the evil named, is a question of time. The plan is worth trying, and if it fails, it may suggest a better one. The time has come when the full energies of the Church must be developed in this department.

EXPLANATORY.

A contemporary for which we have a large measure of respect—the Butler *American*—entirely misconceives our opinions if it supposes we deny or ignore the right of the people to instruct their Representatives, or that we fail to perceive and insist on the duty of Representatives to obey their constituents, so far as what is lawful and right is demanded of them, and by methods accordant with the genius of free institutions. What we deny is, that the few individuals who commonly control party machinery in any given locality, are the people; and we object to the legerdemain by which these few often seek to put their wills in the place of the wills of the many. We cannot be deceived on either of these points by any hue of words, no matter how pleasant.

We believe in the right of the West to the United States Senator about to be chosen, and that there are in this portion of the State men as competent and deserving as any in the Eastern section. Among these Western men we have our preferences, which we have been careful not to intrude upon the public. We have, indeed, opened our columns to the advocacy of the merits of one Western man, who, greatly to our regret, took his name peremptorily out of the category of possible candidates. In the suggestion of that name our contemporary seemed to concur.

It is not improbable that the names of other eminent Western men may be suggested in our pages. Indeed, we believe in freedom of the press, and shall welcome all communications urging, with serious intent, any thing in this behalf—conditioned only, that we will not allow the traducement of individuals so honored by any section of the party as to be named in connection with the Senatorship. None of them are angels. All of them have human infirmities. We know pretty well the strength and the weaknesses of each. If provoked by assaults upon our favorite, we could retort.

As between the men named on the other side of the Alleghenies we have preferences. If Mr. STEVENS was ten years younger, we should go for him against the crowd. If the West shall fail, through petty jealousies, alienations, or ambitions, to unite on one of themselves, and we are thus reduced to choose from among the Eastern aspirants, it will not take us long to make the selection. Till then we are not in the humor to hurry or be hurried, but shall ultimately so elect as to stand justified to our own sense of duty and in the judgment of all dispassionate men.

THE Norristown *Free Press* says Gov. CURTIN is the choice of the Republicans of Montgomery county for United States Senator, and adds: "Her people want a man who will stand up for the radical sentiment of the North, even to the deposing of the President of the United States. They have learned, from sad experience, the danger of selecting a new man, with no political record as a guaranty."

CORN has tumbled six cents a bushel at Chicago, and hence loans on grain cannot be negotiated except on ruinous margins. A crash is anticipated which may swamp a good many. Well, the consumers of corn, who have been swindled by these speculators, will laugh at their tribulation.

A Remarkable Presentiment of Poisoning.

The Cornhill Magazine for October, in an article on premonition, gives the following:

"A young lawyer, who had chambers in the Temple, had a nodding acquaintance with an old gentleman living on the same staircase. The old man was a wealthy old bachelor, and had a place in the country, to which he went for a week every Easter. His servants had charge of the place while he was away—an old married couple who had lived with him for twenty-seven years, and were types of the fine old English domestic. One Easter Tuesday the young lawyer was astonished to find the old gentleman on his Temple staircase, and made some remark about it. The old man asked him into his room, and said he had received a fearful shock. He had gone down as usual to his country place, and had been received with intense cordiality, and had found his dinner cooked to perfection, and everything as it had been from the beginning. When the cloth was removed his faithful butler put his bottle of port on the table, and made the customary inquiries about master's health, hoped master was not fatigued by the journey, had enjoyed his cutlet, and so on.

The old gentleman was left alone, his hand was on the neck of the bottle of port, when it suddenly flashed across his mind, "Here I am, a lonely old man; no one cares for me; there is no one near to help me if anything should happen to me. What if my old servant and his wife have been cheating and robbing me all the time? What if they want to get rid of me, and have poisoned this bottle of wine?" The idea took hold of him so strongly that he could not touch the port. When the man came in again he said he did not feel well, and would have a cup of tea; no, he would have a glass of water and go to bed. In the morning he rang the bell, but no one answered. He got up, found his way down stairs; the house was empty; his two faithful servants had vanished. When he came to look further he found his cellar, which ought to have contained two or three thousand pounds worth of wine, was empty, and the bottle they had brought him last night was poisoned."

—The Norfolk (Va) *Old Dominion* has the following:

"Southern ladies do not talk to anything like the same extent as in former years. What does it mean? Are we wrong in classing this phenomenon among the signs of the times? We believe it is the result of a mysterious solemnity that has in the last few years of trial and mighty events crept over the world. Levity is not as wide-spread. Men and women look now more in earnest, and work harder, do more towards carrying out the end of their being. We may be wrong, but such are our convictions in spite of the wickedness abroad in the land."

—The Nashville correspondent of the Cincinnati *Gazette* says of the Catholic church in that city:

"Colored children are heartily invited to attend the Cathedral Sabbath school with the other children, and no distinction is made on account of color or previous condition of servitude. And there are now a number of colored scholars in regular attendance in the Cathedral school and at St. John's Church in Edgefield, who are placed in the regular classes with the white children, and are treated in all respects as if God had 'made of one blood all the nations of the earth.'"

—The Rev. Mr. A—was more eminent in his day for the brilliancy of his imagination than the force of his logic. At one time he was preaching on "The Ministrations of Angels," and in the peroration he suddenly observed: "I hear a whisper!" The change of tone startled the deacon, who sat below, from a drowsy mood, and springing to his feet, he spoke: "I guess it is the boys in the gallery."

The Body of Roger Williams Absorbed by the Roots of a Tree.

The following curious and interesting statement is from the pen of Rev J. H. McCarty, who is writting a series of articles for the Ladies' Repository, on Roger Williams, the founder of the State of Rhode Island:

Ninety years after his death, in 1771, steps were taken to erect to him some suitable monument, but the storms of the revolution came on and the work was forgotten. And recently the question has been agitated anew, and Williams may yet at least have some outward sign to mark his greatness and perpetuate his name. During a period of one hundred and eighty-three years not even a rough stone has been set up to mark the grave of the founder of Rhode Island, till the precise locality of his grave had been almost forgotten and could only be ascertained by the most careful investigation. Suffice it to say, however, the spot was found a short time ago, though there was little to exhume, on scraping off the turf from the surface of the ground the dim outlines of seven graves, contained within less than one square rod, revealed the burial ground of Roger Williams.

In colonial times each family buried near their residence. Three of these seven graves were those of children; the remaining four were adults. The easterly grave was identified as that Mr. Williams. On digging down into the 'charnel house,' it was found that every being had passed into oblivion. The shapes of the coffins could only be traced by a black line of carbonaceous matter; the thickness of the edges of the sides of the coffins could, with their ends, be distinctly defined. The rusted remains of the hinges and nails, with a few fragments of wood and a single round knot, was all that could be gathered from his grave. In the grave of his wife there was not a trace of anything save a single lock of braided hair which had survived the lapse of more than one hundred and eighty years.

Near the grave stood a venerable apple tree, when and by whom planted is not known. This tree had sent two of its main roots into the graves of Mr and Mrs. Williams. The larger root had pushed its way through the earth till it reached the precise spot occupied by the skull of Roger Williams There making a turn, as if going round the skull, it followed the direction of the backbone to the hips. Here it divided into two branches, sending one along each leg to the heel, where they both turned upward to the toes. One of these roots formed a slight crook at the knee, which made the whole bear very close resemblance to a human form.

This singular root is preserved with great care, not only as an illustration of a great principle in vegtation, but for its great historic association. There were the graves, emptied of every particle of human dust! Not a trace of anything was left! It is known to chemistry that all flesh, and the gelatinous matter giving consistency to the bones, are resolved into carbonic acid gas, water and air, while the solid lime dust usually remains. But in this case even the phosphate of lime of the bones of both graves was all gone! There stood the guilty apple tree,' it was said at the time, caught in the very act of 'robbing the grave.'

To explain the phenomenon is not the design of this article. Such an explanation could be given. And many other similar cases adduced. But this fact must be admitted: the organic matter of Roger Williams must have been transmitted into the apple tree; it had passed into the woody fibre and was capable of propelling a steam engine; it had bloomed in the apple blossoms, and had become pleasant to the eye; and more, it had gone into the fruit from year to year, so that the question might be asked, who ate Roger Williams?

DR. CHAUSSIER'S EMPRESS LA COMPOSITION IMPERATRICE POUR LES CHEVEUX.—It has long been known that the Hair, by mental exertion, by excitement, disease and imperfect circulation, loses its vitality, turns gray and falls off. That eminent French Chemist, DR. CHAUSSIER, has provided a complete antidote, and at the same time a beautiful dressing for the hair, durable and finely perfumed. Remember this is the finest article for the toilet which has ever been presented to the public. IT IS NOT A DYE. It will not soil the finest linen. It will not gum the hair. It is free from the disagreeable smell of sulphur. It relieves the scalp of dandruff and unpleasant irritation. Prevents the hair from falling off, even after fevers. Causes the new hair to grow. It will restore gray hair to its natural color, or the money will be refunded in every instance. As this preparation is comparatively new in this country, the proprietors present the testimonials of well-known persons as to its excellence. Directions in French and English.

THE GRAND SECRET.—The grand secret in medication is to help nature. SUSTAIN and REGULATE—these are the Alpha and Omega of the only theory of cure that has common sense for its basis. If the nervous system is shattered the muscles weak, and the mind, like the body, in a state of partial collapse—what is best to do? Reason teaches as the answer:

BUILD UP YOUR MAN.

Brace him up as you would brace a tottering edifice. The pabulum he needs is a Tonic Alterative. Bring him up out of the depths of Debility and Despondency

WITH HOSTETTER'S BITTERS.

They cannot injure. A child may take them in doses suited to its years, without the possibility of harm. The enfeebled vital powers are as sure to respond energetically to their action as the wilted grass is to erect its blades under the vivifying and refreshing rain. In all cases of debility the Bitters are absolutely required. There is no substitute or succedaneum that will fill their place. Resort to this most wonderful of Modern Tonics

AND ALL WILL BE WELL.

Bear in mind that in Dyspepsia, Intermittent Fevers, Billious Disorders, and Affections of the Nerves, no other medicine will produce one tithe of the good effect that invariably follows the use of this excellent Invigorator and Corrective. Sold everywhere.—*N. Y. Tribune, Oct. 27, 1865.*

MRS. M. C. BROWN'S
METAPHYSICAL DISCOVERY,
Price, $4,00.
Offices—410 Arch St., Philadelphia,
51 Bond Street, New York.

No boring with instruments.
No blowing in the ears.
No snuffing up the nostrils or introducing wires.
No pouring medicines down the throat.
The METAPHYSICAL DISCOVERY will reach every spot that drugs and instruments will reach, and thousands of places besides.
Truth is mighty and must prevail; error is pregnated with death—consequently must sooner or later sink into oblivion.

ARE YOU PREJUDICED!

In consequence of the prejudice existing against patent medicines, it is my earnest desire that my Metaphysical Discovery should not be received or classed with patent medicines of the age. You ask me why? I answer, because it is a *scientific speciality*, differing in application, tendencies and results, from all other remedies and preparations which have ever gone before it. And further, because the Metaphysical Discovery is the result of inherited power to trace effects to thier first cause; therefore let it be understood that the Metaphysical Discovery is not only the result of inherited power, but also the result of a life of rare philosophic research, and that too, in an unbeaten track.

Eyes, and They See Not.

Awake, ye slumbering world and behold yourselves and your children in the prison house of disease, from the cradle to the grave, betake yourselves to thought—think and live. The world writhes in pain and passes into untimely graves. Mark, learn, that your friends die through experimenting on. Every effect driven is a death blow to the physical system. I have never met an individual who was treated for anything but effect. There are many agonizing hearts, sorrowful homes and grassy graves through the use of instruments which tort re and medicines which destroy the system.
The Discovery consists of three distinct preparations, which pass into the system by absorption through the Eyes, Ears and Scalp.
It is packed in a neat wooden case, and will be sent to any address in the world, on receipt of the above price.

CERTIFICATES OF CURES.

I, S. C. Chase, of Cambridgeport, Mass., do certify that I have been troubled with a bad catarrh for upwards of thirty years. I obtained Mrs. M. G. Brown's Metaphysical Discovery, and in ten minutes after using it found relief. I have used the medicine faithfully, and believe it went to the root of my disease. I feel as if catarrh was eradicated from my system, the foul effects of the sad disease having ceased. My wife also has been suffering from a complication of diseases. On using the Discovery clotted blood and matter rushed from her head, and she found immediate relief, and has been gaining health ever since. We heartily recommend the Metaphysical Discovery to all who suffer.

CURE OF CATARRH, ASTHMA, &c.

Mrs. Cheever, residing at No. 6: Allen street, Boston, Mass., says: "I have been troubled for years with asthma, catarrh, and sore throat. I suffered from continual pain and dizziness in my head, cold feet, &c.; for eight years could not attend to my household duties, and had despaired of ever being cured. Providentially learning of Mrs. M. G. Brown's Metaphysical Discovery, I obtained it. The result is, I am entirely cured, and determined to keep a box of it always in my house."

MRS. GEORGE VAUGHN'S CERTIFICATE, OF MALDEN MASS.

This is to certify that I have suffered for ten years from dyspepsia, catarrh, and a complication of diseases. For the past year I have been restless, and could not sleep at night. So exhausted had I become, that I was unable to do my household duties I became so cold that it seemed impossible to keep warm. For sometime my eyes were very much diseased, and my hearing dull. Myself and friends considered me in Consumption. In this state I went to Mrs. M. G. Brown and obtained the Metaphysical Discovery. I have used one box faithfully, and no language can tell the benefit received from it. My eyes have become clear and strong. My dyspepsia is entirely gone. I can now do my own work, and feel altogether a new being. My friends say I am gaining flesh. I know I was I could not have lived. I feel grateful to God for the benefit I have received. I recommend Mrs. M. G. Brown and her mode of treatment to all who suffer as I have done.

CATARRH CURED.—MR. JEROME A. O'CONNOR, OF OLD CAMBRIDGE MASS.

This is to certify that I have been troubled with a bad catarrh for the last five years. This winter it became unusually troublesome. I was obliged to rise at night, owing to the mucus, which would have suffocated me. I obtained Mrs. M. G. Brown's Metaphysical Discovery some weeks back, used it faithfully, and my catarrh began to give way at once. I now consider myself cured young man, being entirely delivered from the terrible disease of catarrh. My sister has also been diseased in her head and eyes from childhood, so much so that the family thought she could not live. In the use of the Discovery she has received equal benefit with myself. We cordially recommend the Metaphysical Discovery.

MISS E. LOGAN'S CERTIFICATE.

I, Emma Logan, do hereby testify that I have had a severe cough for six years; would cough and raise for three hours at a time; often I could not lie down at night; going up stairs, any work would exhaust me. I have been taking medicine and doctoring all the time, but was still getting worse. Providentially a friend procured Mrs. M. G. Brown's Metaphysical Discovery. I have used it one week, and my cough is nearly gone. I have got rid of the tightness in my throat. I can now take a long breath, which I could not do before. I can go up and down stairs without feeling any fatigue. I feel disease is fast leaving my system. No. 374 Hanover street, Boston, Mass.

A REMARKABLE CURE.

A case of the worst type of Chronic Sore Eyes of Twenty-five years standing cured by my Metaphysical Discovery.

I, Eliza B. Jeffries, do certify that I have been suffering for twenty-five years with diseased eyes, taken from measles when a child. I cannot describe the nature of all my sufferings, but will state that my eyes ran corruption and water all the time. My cheeks also broke out down to my chin, and the matter from both eyes and face kept constantly dropping on my dress. All the doctors I applied to failed to render me relief, and I despaired of finding it until learning of the wonderful cures made by Mrs. M. G. Brown, when hope entered my breast, I went to see her and brought home with me the Metaphysical Discovery. I used it according to directions, and now most solemnly and thankfully declare, that through the blessing of God and the use of Mrs. M. G. Brown's Discovery, I am a cured woman. ELIZA B. JEFFRIES, Holmesburg, Pa.

FIVE NEW CASES OF DEAFNESS IN AND AROUND PHILADELPHIA.

Noises in the Head, Running of the Ears, Stiff Neck and Sore Throat cured by Mrs. M. G. Brown, 410 Arch street, Metaphysical Physician, Professor on the Eye, Ear, Throat and Scalp.

The following persons have been cured of the above of cases, through the use of my Metaphysical Discovery:

Miss Rebecca Watson, St. Paul street, Frankford, cured of deafness and noises in the head, can now hear the children calling their names in the next house.

William Einwechter, 1349 North Front street, a lad of about 15 years, was very deaf; can now hear the notes distinctly on the piano. Could not hear a sound before. His whole system is benefitted, as he was an invalid.

Peter Kelly, 1617 South Second street, was quite deaf in one ear, and partially so in the other, has regained the hearing of both well.

Daniel Humphreys, of Darby township, had a swelled and stiff neck for eight years, could not turn his head without turning round his whole body; had also a large lump, size of a hen, hard, under his chin, for one year. Both have disappeared through the use of my Metaphysical Discovery.

A son of Captain David Wase, in Wilmington, Delaware, has been cured of deafness and running of the ears of 15 years standing. Spent large sums of money on different remedies; could find no benefit; procured my Metaphysical Discovery, which immediately cured him.

CERTIFICATE FROM THE REV. P. S. HENSON, PASTOR OF THE BROAD STREET BAPTIST CHURCH, PHILADELPHIA.

From injuries received in my right eye when a boy, a chronic inflammation has been produced, in consequence of which I suffered martyrdom. Every moment of my waking life was embittered, and I was frequently unable to sleep at night. A variety of remedies has been resorted to without success, and I entertained the purpose, as a last resort, of having the ball taken out of the socket, in the hope of thus finding relief. In the meantime, most providentially, I noticed one day in a shop window a bottle of POOR RICHARD'S EYE WATER. I had never heard of it before, and I determined to try it, and did, with the most delightful results. In a few days the painful irritation was removed. I could bear the strongest light, and went forth as it were to the enjoyment of a new life. I now keep a bottle of it always in the house, and if my eye seems at all disposed to annoy me, I give it a dose, and there is an end to it. I would not be without it for any amount of money. I have occasion to say further, that my wife used to suffer severely at times from protracted pain in and over her eyes, and she has found Poor Richard's Eye Water a sovereign specific in her case, giving her almost instant relief.

Grateful to God for the benefit I have personally received, I cannot but commend the preparation most cordially to those who have suffered like myself.

Pastor of the Broad St. Baptist Church.

District Court.

The District Court met yesterday morning at the usual hour, Judge Williams on the bench. The following business was disposed of:

The jury in the case of Wm. Parkinson vs. W. H. Brown, which has been on trial since Monday last, found a verdict for the plaintiff. Counsel for defendant made a motion for a new trial and filed reasons therefor.

The next case taken up was that of M. McCullough, Jr., vs. Thomas Kirk. This was an action to recover damages for a breach of a parole contract. The defendant, it is alleged, in November, 1865, contracted to deliver to plaintiff a deed for a lot of ground situated in the Ninth ward, having a front of twenty-four feet on Penn street, and running back one hundred and ninety-three feet to an alley, on which were erected three buildings, for the sum of $3,900 in cash. The deed was to be delivered on the first day of December, 1865, and the purchase money was to be paid on the same day. This contract the defendant, as is alleged, failed to perform, and the action was brought to recover damages, laid at two thousand dollars, sustained by the plaintiff in consequence of this failure. T. M. Howard, Esq., appeared for the plaintiff, and Messrs. Kirkpatrick and Mellon for defendant. Jury out.

The case of the Montana Oil Refining Co. vs. Wade Hampton, trading as Wade Hampton & Co., was next taken up. This was an action to recover $1,574, the amount of a draft alleged to have been drawn by defendant to the order of David Bly, for balance due the Montana Oil Company. A. M. Watson, Esq., for plaintiff, and Kirkpatrick & Mellon for defendant. On trial.

Amusements.

OPERA HOUSE.—At the Opera House the Three Guardsmen continues to draw splendid houses, and we congratulate Manager Hess upon the success which has thus far attended his efforts to present the theatre-going community with entertainments of a first class character. This afternoon a grand matinee will be held for the benefit of ladies and children who cannot go unattended to the evening performances. A good bill is offered for this evening.

PITTSBURGH THEATRE.—Mr. John Brougham's success at this popular place of amusement continues, and is a new evidence of the discrimination exercised by our amusement loving community. He is a clever actor; a funny fellow who gives dignity to the character he represents and avoids the nonsensical grimaces and facial contortions which some believe necessary to make fun upon the stage. We hope Mr. Brougham will have a crowded house to-night, his last appearance here for a season at least. A matinee will be held this afternoon.

GERMAN THEATRE.—The Academy of Music will be thrown open to-night for the season, under the auspices of a German stock company. The performance will be altogether in the German language.

THE ARABIAN NIGHTS.—Masonic Hall is still drawing thousands upon thousands of visitors, with the grand paintings illustrating the Arabian Nights' Entertainment.

Relics From the Deep.

A cotemporary is responsible for the following: Mrs. E. N. Caldwell writes from "Coast of Florida, twelve miles north of Fernandina," under date of October 21st, that she has in her possession a beautiful box, which was found upon the seashore, containing, besides other valuable articles, the likeness of a lady and gentleman, and five letters. These undoubtedly belonged to one of the unfortunates lost on the ill-fated Evening Star. Two of the letters were written at Nashville, Tenn., one in December, 1865, and the other in January, 1866, another at Cincinnati, January 20th, 1866, and the two last at Cleveland, April 25th, and and June 20th, 1866. The three former are directed to New Orleans and the other two to Boston, all addressed to "Miss Mary Bell E—." Three are signed "F. W. C." and two "William." If this should meet the eye of the writer, he will be enabled to recover what may be dear to him, by communicating with Mrs. E. N. Caldwell. Her address until January 1st, 1867, will be Fernandina, Florida, and after that date Baltimore, Maryland.

Robbery.

A young man named Anderson James, appeared before Alderman Lynch, yesterday, and made oath against Samuel Drayton, for the larceny of fifty dollars from the residence of Mrs. Young, in Poplar alley, in the Sixth ward. It appears the defendant has been boarding at the house mentioned for some time back, occupying a room contiguous to that of Mr. James. Yesterday morning the latter found his trunk broken open, and the money it contained, namely the forty dollars, gone. From the fact that Drayton was seen in the room a few hours previous to the time the robbery is supposed to have taken place, suspicion was fixed upon him, which led to further investigations, resulting in the information being lodged as stated. Drayton was arrested, and in default of $500 bail, was committed to jail to await a hearing to be had in the case to-day.

Accident on the Pennsylvania Central Railroad—Governor Geary in Greensburg—Serious Accident to a Young Lady.

GREENSBURG, PA., Nov. 2, 1866.—A western bound freight train on the Pennsylvania Railroad, was thrown from the track on Friday morning, near George's station, causing a general smash up and blockade. The Johnstown accommodation had to pass down on the eastern track, which threw it behind considerably. No lives lost.

General John W. Geary is in town, stopping at the Oil Exchange. He is looking well.

A young lady, named Evans, residing near Latrobe, was caught in the "tumbling wheel" of a threshing machine at John George's yesterday, and most shockingly mangled. Her recovery is despaired of. ANAWAN.

Supreme Court.

Court met at the usual hour yesterday morning, a full bench being present.

Fitzgerald vs. Stewart; Armstrong county. Argument closed by Barclay for defendant in error.

Chas. W. McHenry, of Pittsburgh, on motion of S. H. Geyer, Esq., was duly admitted and qualified to practice in the Supreme Court.

Gourleys vs. Tinsabigler. Re-argument by Golden for defendant in error, and by Purviance contra.

Cambria Iron Company vs. Tornb; Indiana county. Argued by Silas M. Clark for plaintiff in error, and Joseph M. Thompson contra.

Revenue Seizure.

The United States Collector of Internal Revenue, of the Twenty-third District, a short time since seized upon the distillery of Bernard Coll, located in Butler county, on account of alleged failure to make proper returns under the revenue law. On the 12th ult. a libel was filed in the United States Court, by District Attorney Carnahan, against the distillery, eight barrels of whisky, one barrel of spirits, and the machinery and appurtenances of the establishment. Yesterday a monition was ordered to issue directing the proprietors to appear on the 14th inst. and make answer in the premises and intervene in behalf of his property.

City Mortality.

The following is the list of interments in this city from October 21st to October 28th, as reported by Dr. George L. McCook, Physician to Board of Health:

Cholera, 1; Old Age, 2; Typhoid Fever, 2; Consumption, 1; Delirium, 1; Cancer, 1; Cynancye Larynges, 1; Scarlet Fever, 1; Bronchitis, 1; Convulsions, 2; Tubercular Meningitis, 1; Whooping Cough, 1; Diphtheria, 1; Still Born, 1.

Of the above there were: Under one year, 4; from one to two, 4; from two to five, 1; from twenty to thirty, 3; from forty to fifty, 3; from seventy to eighty, 2. Males, 8; females, 9. White, 15; colored, 2. Total, 17.

Held to Bail.—A teutonic individual named Conrad Schramm, appeared before Justice Ammon, of East Birmingham, yesterday, and made an information against a fellow countryman named Herman Schiedam, for aggravated assault and battery. The parties reside in close proximity to each other in the village of Mansfield, but notwithstanding this fact, there is no affinity between them, but on the contrary, their compositions are so moulded that they are always in direct antagonism. A few days since they indulged in one of their periodical quarrels, which resulted in Schramm being knocked down and severely beaten. Officer Field succeeded in arresting the accused who was made to give bail in the sum of $500, for his appearance at court.

Aggravated Assault.—Elizabeth Commonfast appeared before Alderman Taylor, yesterday, and instituted proceedings against Allen Morton for aggravated assault. The deponent alleges that on Wednesday evening the defendant met her on Wood street and after using some very insulting language he spat in her face and shoved her off the sidewalk into the gutter where she slipped and fell cutting her face and otherwise injuring herself. Morton was arrested but was released on giving bail for his appearance at a hearing to be had in the case to-day.

Bronchitis.—This terrible affliction may in most cases be prevented by a timely recourse to Dr. Keysers Pectoral Syrup, which is the most efficient remedy known for the cure of coughs, colds, and all affections of the throat and lungs. Sold at 140 Wood street.

Coughs and colds if not attended to promptly, often produce fatal results. Dr. Keysers Pectoral Syrup will cure any cough or cold, no matter how severe, in from one to two days. Sold at 140 Wood street.

Bitten by a Dog.—Mary Ellen Mayberry, a little girl of twelve years old, was bitten by a large dog while playing on the steps of her father's residence, in Overhill street, in the Seventh ward, yesterday afternoon between four and five o'clock. The right shoulder of the little girl was terribly lacerated, the teeth of the animal having been buried several inches in the flesh. The dog belonged to a gentleman named McCay.

Assault and Battery.—Margaret Lynch came to the office of Alderman Strain yesterday and made oath, charging August Eddie with assault and battery. The parties reside in the borough of East Birmingham, where the offense is alleged to have taken place. A warrant has been issued for the arrest of August.

Home Again.—Joseph Abie, Esq., and C. Ludewig, Esq., have just returned from an extended and highly interesting tour through the principal countries of Europe. They are in the enjoyment of excellent health and express themselves much pleased with their visit.

Special Caution.—Mrs. Winslow's Soothing Syrup has become so popular that various parties have put out articles calling them Mrs. Winslow's. Please take notice that the Mrs. Winslow of the Soothing Syrup is not connected with any other article.

EARLY TELEGRAMS.

FROM MEXICO.

The Surrender of Matamoras—Carnales Determined to Hold the City—A New Campaign Inaugurated.

NEW YORK, November 2.—The *Herald's* Matamoras dispatch of the 16th ult, says: It is thought here that Mejia will occupy this border. It could only be done at a large expense of blood and treasure, and with no corresponding advantage. Canales is still in possession of the town, and Tapia is about three leagues with 1,800 men.

Negotiations for the surrender of the city have been in progress the past few days. They closed yesterday without any practical results.

Col. Fennija, of Ortega's staff, arrived in Brownsville yesterday. He has been closeted with prominent Mexicans, who are friends of Canales and supporters of Ortega. Canales, this morning, expressed his determination to hold the city at all hazards against Tapia and Cortinas. This is probably the result of the arrival of Col. Fennija, and it is generally believed here that he will shortly pronounce in favor of Ortega.

The forces of Tapia and Cortinas will be combined for another attack, which will be delayed some days on account of the bad condition of the roads.

Advices from Monterey state the important fact that General Tervine was at El Cedral, in the State of San Luis Potosi, on the 11th instant, and on that day issued a proclamation to the people of that State. It is thought he will be able to oppose any force which Mejia can bring against him.

General Tapia has issued a proclamation to the people of Tamaulipas, in which he announces himself as the representative of the supreme government, and intimates his intention of attacking Matamoras at an early day.

From a private letter, dated October 16th, I learn that Douay is in Mathulia with 1,500 men. He has offered for sale his carriages and horses, and is packing up for a journey to the City of Mexico. It is said the retreat from that place would commence on the 15th of October.

The Liberal forces have left Saltillo.

Under Ferrind and Navarajo a new campaign has been inaugurated.

An intercepted dispatch from San Luis Potosi to Mathweld, showed that Jeaningras wrote on the 15th of September that he was marching on Queretaro, leaving Douay at San Luis, and that later, Douay started to join them.

Arrested for Perjury.

NEW YORK, November 2.—Sanford Conover, alias Charles A. Duncan, who was implicated in the recent conspiracy to convict Jeff. Davis of being an accomplice in the assassination of President Lincoln by means of suborned witnesses, was arrested in this city yesterday and taken to Washington. The arrest was made on affidavits of Wm. H. Roberts, J. A. Hoare and L. C. Turner, charging Conover with perjury.

Movements of Gen. Sherman—Death of John M. Speed.

NEW YORK, Nov. 2.—The *Herald's* Washington special says: Gen. Sherman has left for his headquarters at St. Louis.

John M. Speed, of Lynchburg, a leading lawyer of Virginia, and cousin of the late Attorney General Speed, died yesterday.

Race.

NEW YORK, Nov. 2.—The race between the keel boat Hirondelle and the centre board schooner Vista, from Sandy Hook light-ship twenty miles to the windward and return, took place on Wednesday. Hirondelle was victorious, making the distance in five hours twenty-eight minutes and fifty-seven seconds.

Trotting on the Fashion Course.

NEW YORK, Nov. 2.—In the race yesterday on the Fashion Course, between Lady Thorn, Lady Emma and George Wilkes, Lady Thorn was victorious. Time, 2:28, 2:27 and 2:28.

Trial of Fenian Prisoners.

NEW YORK, Nov. 2.—The *Times'* Montreal special says: The Fenians now in jail here, numbering about twenty, will be tried the first week in December.

BELL'S SPECIFIC PILLS,

Price one dollar per box, or six boxes for five dollars; also, large boxes, containing four small. Price three dollars.

From four to six boxes are generally required to cure ordinary cases of Seminal Weakness and Emissions, though benefit is derived from using a single box.

It gives strength to the organs, and with the Pills will restore them to their normal condition.

CAUTION.—The above Remedies have now been before the public many years, and their great success in the alleviation of human misery, has excited the cupidity of several parties, who use the name "Specific Pills," copy my labels, circulars and advertisements, sometimes word for word, and put up worthless compounds that disappoint the just expectations of the purchaser.

If you cannot purchase Bell's Specific Remedies of your Druggist, take no other, but send the money direct to

Stock and Real Estate Broker.

FOR SALE—400 Acres of Coal Land, lying immediately upon the Ohio River, 20 miles below Gallipolis, and 185 miles above Cincinnati. On the above tract is a four foot vein of Coal, which, for general purposes, is not surpassed. It is entirely different from the Southern Ohio Coal; contains but little sulphur, forges and cokes well, and for making steam cannot be excelled. The location being about midway from Pomeroy and Hanging Rock, must make it valuable for coaling boats. There is a water front of ¼ of a mile, with a good landing at all stages of the river. An entrance has been run in the hill about 300 feet, track finished to river, together with the necessary fixtures for mining and delivering coal afloat. On said tract is first-class double Portable Circular Saw Mill together with a Portable Grist Mill, all in good running order, and plenty of the very best oak, ash and poplar timber. Would sell one-half interest if desired, to a party with experience and capital for working same.

FOR SALE—231 acres Coal, in-cluding 51 acres Surface, on the East side of the Ohio River, three miles above Wheeling, with right of way to river. The close proximity to a good market at Wheeling, together with the fact that the coal crops out high enough in the hill to be used profitably for rolling mill purposes, makes this a good investment.

—The quarterly report of the National Banks of the United States fo October 1st has been rendered, showing the total liabilities to be $1,525,493,960, against $1,476,266,877 of the previous quarter ending July 1st, 1866. Up to the 1st of October the National Bank circulation then set down at $280,129,558, had increased nearly $13,000,000, while the old issues as State banks have diminished $10,000,000. The total old circulation as State banks is $9,619,719. The loans are $53,000,000 more than in July last; and the private deposits $30,000,000. The statement shows an expansion and a disposition to make money at any risk.

—There is no perceptible scarcity of cash gold, though the customs demand continues to range at about $400,000 per day. The gold interest to to be paid this week will probably average three or four millions per day on Thursday, Friday and Saturday; so there is every prospect of a good supply of gold for immediate delivery, should the tune of the foreign exchanges or any new speculative combinations require it.

—Says the Philadelphia *Press*: That portion of the public who place implicit confidence in the good intentions of the stock brokers will be able to judge whether the latter reciprocate that confidence, when we state that the resolution to admit the public to their room was again voted down yesterday by that august body. One good effect will probably flow from this renewed contemptuous treatment of the outside operators, and that is to confine stock gambling to the board itself and its members, where, in truth, it legitimately belongs.

PITTSBURGH IRON MARKET.

OFFICE OF THE PITTSBURGH GAZETTE,
FRIDAY, Nov. 2, 1866.

There is no apparent abatement in the demand for crude irons, and as the supply is very much reduced, and receipts continue light, the market is very firm and prices are still tending upward. It is said that if metal appreciates much more, our mills will be obliged to suspend, as they cannot advance manufactured iron and compete with foreign irons, and it is alleged that at present card rates, manufacturers are incurring a positive loss. Be this as it may, however, there is no disguising the fact there is a very active demand for metal, and the market is decidedly in favor of the furnacemen, and they have no compunctions in making the best of it. The following is a partial report of the sales during the week:

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE,
FRIDAY, November 2, 1866.

CRUDE—There was again quite a spirited demand for Crude to-day, and a considerable amount changed hands at a slight advance, though towards evening there was a lull, owing to reported unfavorable advices from Europe by the cable. We now quote at 10¾ to 11½ in bulk and barrels returned, and 16 to 16½ bbls included, and for the present, these may be regarded as the extremes of the market. Sales of 750, 800, 700 1400, 1000, and 800 bbls, all at 11 cts; 175 at 10¾, bbls returned; and 625, in bulk, at 11½. It was reported, though we cannot vouch for the correctness of the report, that 11¾ had been offered and refused for five thousand barrels—it is possible that this story may have been gotten up for effect, a thing that has been quite common of late.

REFINED—There was also quite a spirited demand for bonded oil during the greater part of the day, though towards evening it showed some indications of weakness, in consequence of reported adverse intelligence from Europe by the cable—quoting refined in Liverpool at 1s 6d, against 1s 8½d to 1s 9d by steamer, a material decline, and if true, is certain to have a depressing effect on our market. We can report sales of 500 bbls for November, at 30, free on board cars here; 500 for December, b. o., at 30; 500 for same month and same option, at 31; 1000 for November, same option, at 31; and 500 for December delivery in Philadelphia, at 37. From the above sales, it will be seen that quotations may be fairly given at 30 to 31, free on board cars here, and 36 to 37, delivered in Philadelphia. If the foreign news above referred to should prove to be correct, these quotations cannot possibly be maintained, and operators had better make up their minds to that effect at once.

ARRIVALS—The following arrivals of oil were reported to-day:

Fisher & Bro.	2575	Miller & Edwards	800
Jackson & Bro.	1100	Jas. Wilkins	625
W. P. Logan	144	O. O. Phillips	77
Total			5322

Petroleum—Foreign Exports and Stability of the Trade.

So great were the disasters in the oil trade consequent upon the operations of swindling financiers, that the most persons for a time imagined it to be merely a bubble, like the silk worm mania. This did, indeed, produce a heavy falling off in the yield of the oil wells, owing to the failure of companies and stoppage of works. But the petroleum interest has survived all its errors, and this year the export has been greater than ever, as will be seen by the following figures showing the shipments from the Atlantic ports to September 3:

	Gallons.
In 1863	20,612,904
In 1864	21,838,556
In 1865	12,536,485
In 1866	39,518,427

In all probability the petroleum trade is better and stronger for the purging it has undergone, although the misery it has involved to thousands of persons is frightful to contemplate.

The figures we present above appear to indicate that the petroleum business has at length become permanently prosperous, despite all the devastation of fires, and the still worse ruin wrought by Culver's banking explosion.

This interest is building up in Northwestern Pennsylvania a region that promises to be as prosperous as the anthracite coal district of Schuylkill. It should be borne in mind that, notwithstanding all the talk about the riches of other oil regions, the great bulk of this export is the product of Pennsylvania, the oil of other regions not meeting with a ready sale in foreign countries, owing to the inability of refiners to deodorize it sufficiently. To Cleveland, Pittsburgh and Erie this interest has become an immense source of wealth and prosperity, for not merely in the transportation and sale of it do they thrive, but in the refining of it they have reared up a constantly augmenting industry.—*Philadelphia North American.*

New York Dry Goods Market.

NEW YORK, Nov. 2.—The Dry Goods market shows some further effects of the continued depression of the past week, while at the same time there are signs of a coming improvement. The stocks of goods have accumulated to some extent, and have been offered at rather lower figures. Some 200 cases of Merrimac Prints were disposed of by agents to a leading jobber at about one cent reduction from the asking rates. This gave a definite shape to this kind of goods, and prices have generally followed the reduction until they are now offered at figures at which they were sold previous to the first of October. At the New York Dry Goods Exchange the following report is made of Jobbers' prices to-day: Brown Sheetings—Salmon Falls A, 22½; Great Falls M, 21; do S, 19. Bleached Shirting—Bartlett's, 30; Hope, 28; Greene Manufacturing Co., 22. Prints—Cocheco, 21; Richmond, 19; Freeman, 17; Empire, 13. Ticks—Amoskeag B, 41, do D, 31; Pittsfield, 14½. The stock market is dull at a decline of from 20 to 25c per 100 lbs on yesterday's prices, and with this exception, there is scarcely anything different to report from the general condition of things as stated for the past two or three days. Dullness is the prevailing feature, buyers standing aloof from purchasing to any extent.

RIVER NEWS.

The river continues to recede steadily at this point, with but little over eight feet in the channel by the marks last evening. At Oil City, the Allegheny was reported falling, with but four feet in the channel. Here, the weather was mild and cloudy yesterday, with appearances of more rain.

The Delaware, from Parkersburg, and the Spray, from Cincinnati, constitute arrivals, while the Quickstep, for Cincinnati, Robert Moore, for Portsmouth, and Leni Leoti, were the departures. The Quickstep had an excellent trip, as also had the Moore.

The Ida Rees got in from Oil City yesterday, and the Echo cleared for that point last evening.

Hereafter, the Argosy No. 2, Capt. Vandergrift, will ply as a regular weekly packet between here and Cincinnati, in connection with the Quickstep, leaving here every Tuesday and Cincinnati every Friday, and as our shippers are interested in a movement of this kind, they should do all they can to support these boats. As will be seen by card, the Argosy will leave on her first trip, on Tuesday next.

The tow boat Star, left with a tow of one hundred thousand bushels of coal for Memphis last evening, and the Tom Rees and some other boats, it was expected would get out.

The tow boat Simpson Horner met with a rather serious accident yesterday, though fortunately no one was injured, so far as we could learn. While passing down in the vicinity of White's Ripple her steam pipe exploded, and, as it is reported, the steamer becoming unmanageable sunk two coal boats she had in tow. The Horner is a new boat, and was on her first trip.

The Bellevernon, Capt. Darragh, with Mr. Wm. Blackstock in the office, is announced for St. Louis, and all intermediate points forthwith.

The Armenia, Capt. A. C. McCallum, is filling up steadily for New Orleans, and will be the first boat out for that point.

The Kate Robinson having her cargo about completed, will positively leave for St. Louis to-day, and passengers and shippers should bear this fact in mind. The Kate Putnam, Capt. J. H. Lightner, is in turn after the Kate Robinson.

The Camelia, Capt. Lytle, is announced for Nashville and all intermediate points.

The Silver Cloud left Cincinnati for Pittsburgh on Wednesday, and the Lorena, in command of Capt. C. A. Dravo, was advertised to follow on Thursday. We learn from New Orleans papers that the Ezra Porter arrived there on the 27th of last month. The Cincinnati *Commercial*, of Thursday says:

Mr. Walter N. Maratta takes charge of the office of the Groesbeck......Mr. W. H. Armstrong has retired from the office of the Sam J. Hale. Mr. Ed. C. Miller is his successor......Capt. J. G. Shute leaves for New Orleans this evening with the Cuba on her first trip. ......The Maggie Hays, having given up her trip for Pittsburgh, is loading for Memphis. ......We regret to announce that Capt. J. A. Frazier, of the Nightingale, and Capt. W. W. Fenton, of the Silver Spray, have both been confined to their rooms for a day or two. They were improving last evening, however...... ......Messrs. Dorsey and Hall are the Silver Cloud's pilots.

We take the following items from the Saint Louis *Democrat*:

The weather is almost cold enough for winter. It will be learned no doubt that cakes of ice were floating yesterday in the Mississippi near St. Paul. They were thinking a few days ago up there of laying boats up for the winter. They generally do so about the 10th of November. Yesterday, Wm. D. Rogers sold his one-fourth interest in the steamer W. H. Osborn to Thomas Rogers for $12,000. Some months ago W. D. Rogers bought one-eigth from H. K. Haslet and one-eighth from John M. Hare.

A MAMMOTH STEAMER.—Capt. J. B. Ford, of New Albany, is building a steamboat at Stuart & Bannon's ship yard, at Jeffersonville, 320 feet long, 45 feet beam and 9 feet hold, with 10 double flue boilers 42 inches diameter, 2 cylinders, 34 inches diameter, 12 feet stroke, wheels 38 feet diameter, with 17 feet bucket, with an easy model for a fast running boat.

A NOBLE DETERMINATION.—Some time ago a controversy arose between the admirers of the steamers Arthur and Magenta, as to which of the two was capable of the greatest speed. Captain Leathers became nettled by an article which nearly all river papers published, stating that the Arthur had passed the Magenta, and wrote a letter offering to run the Magenta against the Arthur for $20,000. Captain Carson, of the Arthur, is out in a manly letter in reply, complimenting the Magenta for her speed, and closes with the following fine expression of a noble determination:

"I am opposed to racing, and I think betting is a poor argument; besides, I cannot and will not put in jeopardy the lives of those who have placed themselves under my care. I have no right to trifle with their lives, and will not, through false pride or mad ambition, be forced into a position whereby harm might ensue to any human being. Besides, the speed of my boat is so well known and admitted that it does not require me to run her on a wager to prove it. My greatest ambition will continue to be to carry my passengers with safety, and to protect the property placed under my charge."

GREENBACKS

ARE GOOD.

BUT

ROBACK'S BITTERS

ARE BETTER,

Roback's Stomach Bitters.

After years of experience and trial, have proven to be the best remedy extant for all complaints where a tonic and stimulant are required. They never fail to strengthen the weak, impart vigor to the strong, and in all respects restore shattered and broken down constitutions. No remedy has been received with as much favor as ROBACK'S STOMACH BITTERS.

GREENBACKS

ARE GOOD,

BUT

It is admitted by our most learned physicians that DR. ROBACK'S BITTERS combine the properties of a gentle laxative, an efficient anti-billious agent and the best stomachic known to the world.

ROBACK'S

BITTERS should be used by convalescents to strengthen the prostration which always follows acute diseases.

In the billious districts of the West and South, there has, for a long time, been much needed, an article of Stomach Bitters, which, if taken in proper quantities and at the proper time, are a sure preventative of

Bilious Fever, Fever and Ague, Liver Complaint, Dyspepsia, Indigestion, Jaundice, Kidney Complaints, and all Diseases of a similar nature, and

Are Better

As a preventive for bilious deangement, regulating the system and giving tone to the digestive organs, than any other known remedy.

Now that the war is over, there will be thousands seeking homes in the South. No person who values his life should go there without having constantly on hand the BITTERS, as a safeguard against epidemics and maladies engendered by miasma and polluted water

Travelers to and all residents of the rank river bottoms of the west and south, and the valley of the Mississippi and its tributaries, should provide themselves with the
